ABOUT SAFEMARK

Safemark is the dominant provider of electronic safes to the global hospitality industry and the approved supplier of leading hotel brands and management companies. With more than one million installations and the widest selection of safes, Safemark has engineered a complete line of safes to balance the unique needs of designers, operators and hotel guests. Installations range from luxury to economy properties with models crafted to accommodate case goods, walls, closets, and more.

EXPERIENCE COUNTS

Comprised of industry veterans, Safemark's team understands the importance of timely service. We maintain commanding market share in the United States with extensive international coverage through regional offices and trusted distributor partners. We're available to collaborate with your team and design professionals to ensure the perfect fit without sacrificing security.

WHY SAFES

The proliferation of guests traveling with expensive electronic devices, increased security concerns, and the competitive pressure on hotels to provide amenities for guests have accelerated the penetration of in-room safes across all segments.

GUEST BENEFITS

- > 24/7 access to valuables in the privacy of the guest room
- > Large enough to accommodate oversized laptops
- > No waiting in line to access safe deposit box
- > Guests choose private code with no keys or cards to carry
- > Contents are covered by Safemark's exclusive \$10,000 warranty against forced entry

Provide guests with peace of mind and freedom to explore knowing their valuables are secured in a Safemark safe.

SUPPORT

Our certified technicians and global partners are available at all hours of the day to ensure hotels get the most from their investment. Utilizing modular components, your engineering staff will have quick access to spare parts for on-the-spot repairs. Safemark safes are not over-engineered and require little maintenance.

QUALITY

We manufacture our safes & maintain complete control over product integrity. Why gamble when Safemark guarantees spare parts for the life of each safe and performs routine quality checks throughout the manufacturing process. Be confident of securing your guest's valuables today and for many years to come.

WARRANTY

As an added peace of mind, Safemark's safes include up to a five-year manufacturer's warranty and an exclusive \$10,000 limited warranty against forced entry. These warranties provide financial reassurance and speak to Safemark's commitment to deliver quality products.

TRUST THE EXPERTS

Our durable electronic safes protect your guest's valuables and your property's reputation. But we go beyond product strength with professional training and installations services to ensure success and enable you to focus on other areas of responsibility.

TRAINING

We offer a number of training options including onsite and remote with programs tailored to relevant departments. Administrative functions and detailed review of our comprehensive audit trail will be shared with those appointed by management. Preventative maintenance services are also covered.

LOGISTICS

Unless you're a new construction property, deploying guest room safes takes a great deal of facilitation. Safemark installers handle the entire process from unloading the truck to final trash removal. We have installation down to a science allowing your property to operate with little guest interruption.

INSTALLATION

Safemark employs a full-time installation team to assist properties with implementing this important guest amenity. Licensed, insured, and bonded, our team will ensure each safe is properly attached with the correct hardware. They can work independently or side-by-side with your staff, ensuring a seamless installation.

DEPENDABLE SECURITY

Hotels depend on reliable, emergency access to their safes and Safemark's industry-leading override systems deliver confidence. Safemark will undoubtedly meet your security needs while maintaining the design integrity of your guest room.

Medeco™ Key Override

MEDECO™ KEY OVERRIDE SYSTEM

Concealed behind a magnetic plate, the UL-rated Medeco™ cylinders are customized to each property with a unique pinning code. Unlike skeleton keys, the Medeco™ key cannot be easily copied and additional keys are only available from the manufacturer with proper authority. The lock is virtually pick proof and cannot be bumped.

Emergency Handheld Override

EMERGENCY HANDHELD OVERRIDE (EHO)

Safemark's EHO provides added security with password protected access via easy-to-use Windows® software. This comprehensive audit trail saves both time and money while reducing fraudulent liability claims.

EHO FEATURES

- > Windows® Software
- > Multi-Level Password Security
- > PC/Network Backup Capabilities
- > Industrial-Strength
- > Battery Indicator
- > LED Display
- > Property Customization for Length of Countdown and Number of Entries Before Activation

240 EVENT AUDIT TRAIL

Audit retains the following:

- > Time and Date of Each Safe Locking and Opening
- > Full Identity (Full Name) of Authorized Staff Members Who Have Opened a Locked Safe
- > Time and Date of Countdowns
- > Time and Date of Medeco™ Key Openings
- > Time and Date of Battery Replacement

ENHANCE GUEST EXPERIENCE

With a focus on delivering technology-enabled solutions, Safemark and Orlando-based ScooterBug merged to alter the way hospitality venues deliver guest convenience, security and mobility. Our broad range of solutions enables operators around the world to improve operational efficiencies and increase profits – all while enhancing the overall guest experience.

PERSONAL STORAGE SOLUTIONS

Founded in 1968, Best Lockers is a leading provider of electronic locker solutions to the leisure and entertainment industries. Their patented GoPod enables guests to quickly store belongings while facilities benefit with increased revenues and improved patron satisfaction. Best Lockers was acquired by Safemark in 2011.

GUEST MOBILITY SOLUTIONS

With over 300 customers and 40,000 pieces of equipment deployed, ScooterBug is the market leader in providing custom guest mobility solutions. Their customer base includes theme parks, water parks, and amusement parks, zoos, malls, casinos, hospitals, resorts and other destination locations throughout the world.

TRAVELER PRIVACY SOLUTIONS

SPEYEGUARD® stationary covers are an innovative peephole cover developed to protect against tampering. Designed to automatically self-close, SPEYEGUARD® stationary covers eliminate the issues found with swing-style and side-slide covers. SPEYEGUARD® stationary covers easily retrofit on both wood and metal doors.
